

# Village of Ostrander Plan

The **Village of Ostrander** recognizes that creating a comprehensive plan provides an essential foundation for guiding future development in the Village.

The Planning & Zoning Committee (P&Z) has been appointed the Comprehensive Plan Steering Committee (CPSC) to advise and guide the development of the Village Comprehensive Plan. The Committee is a broad representation of the community, and Committee members will serve as liaisons to their respective groups, organizations and committees to encourage community participation in the planning process.

The CPSC is scheduled to meet monthly at the regularly scheduled P&Z meeting.
