

City of Aurora

Sidewalk Connectivity Project

Aurora Connectivity Sidewalk Program

- The city is working on creating a master connectivity flow utilizing sidewalks and trails.
- Since 2018, the city has installed 12,236 feet of sidewalk throughout the downtown area
- Looking at adding another 9,000 feet in the next 2 years
- Installing a trail in the city and Mantua (2.5 miles) in 2024/2025.

Maintenance

- City installed sidewalk – city maintains
 - Snow removal
 - Repairs
- Existing and development installed sidewalk – homeowners maintain

Maintenance

- Snow Removal
 - City purchased specific equipment to remove/plow snows on sidewalk
 - Purchased Ventrac/enclosed cab/plow
 - The first year of snow removal was a learning year for staff.
 - Equipment needed
 - Routes
 - When to plow
 - The second year was much better!!
