### 3. Director's Report

#### Development Team Meetings

Hosted/scheduled by DCRPC, these meetings are generally quarterly and include RPC, DCEO, DCRSD, Building Safety, and Economic Development. Departments discuss project status throughout the County. **The next scheduled meeting is (today) on November 12<sup>th</sup>.**

#### Transportation Advisory Committee

Hosted by MORPC, these are monthly in-person meetings. **Attended the November meeting.**

#### MORPC – Cycling Map Update

MORPC and Central Ohio Greenways are updating their printed bike map for the first time in 10 years – made possible by funding from the Ohio Department of Transportation. MORPC will be engaging stakeholders over the next couple of months leading up to the release of the new maps in summer 2026. The update will include a new 15-County-wide Trail Map and Trail Town Story Map. **Brad attended the first meeting on November 5<sup>th</sup>.**

#### MORPC – US-23 Pathways for People Active Transportation Plan

These workshops focus on homing in on final project priorities, action plan items, and next steps regarding development of key projects beyond the conclusion of this plan. In service of this, MORPC will engage attendees in smaller-group conversations around strategies for implementing key network connections and identifying key projects to advance toward feasibility study or other initial project development steps, potentially through utilization of MORPC's enhanced 2026 Technical Assistance Program service offerings. There is a focus on sub-sections of the corridor and taking a particular look at focus & activity areas. **Brad attended this 3<sup>rd</sup> and final meeting on November 6<sup>th</sup>.**

#### Central Ohio GIS Users Group

Hosted by MORPC, these are hybrid meetings that occur quarterly. GIS tips, tools, projects, data, maps and apps are shared by various agencies. **Brad and Da-Wei will be attending the November 19<sup>th</sup> meeting, along with the Regional Information & Data User Working Group (RIDG) on November 12<sup>th</sup>.**

### DCRPC-Managed Projects

#### Radnor Township Comprehensive Plan

Staff is meeting monthly with the Radnor Township Comprehensive Steering Committee to create Radnor's first Comprehensive Plan. Once the Plan is adopted the Township plans on adopting their own Zoning Resolution. **Brad will be presenting updated information and survey results at the next scheduled Steering Committee meeting on December 8<sup>th</sup>. The Plan should be completed within the next 8 months.**

#### Concord Township Comprehensive Plan

Staff is working with the Zoning Commission on various updates in existing sections of the Zoning Resolution. **"Final" Steering Committee draft being discussed with the Trustees on November 12.**

## ZONING MAP/TEXT AMENDMENTS

34-25 ZON      Troy Twp. Zoning Commission – Zoning Resolution text amendments (Sec. 28.06 D, 9-11)

### Request

The Troy Township Zoning Commission has initiated changes to Section 28.06(D) of the Troy Township Zoning Resolution that will add three factors (9, 10, and 11) to the criteria for approving a Variance.

### Summary

The existing article is shown below, with the added factors shown in red.

#### Article XXVIII

#### Section 28.06 D

- D) Decision - In granting such variance, the Board shall determine that said variance will not be contrary to the public interest, is justified due to special conditions, that the literal enforcement of the Resolution will result in practical difficulties and that the spirit of this Resolution will be observed and substantial justice done.

The factors to be considered and weighed in determining whether practical difficulties have been encountered shall include, but are not limited to the following:

- 1) Whether the property will yield a reasonable return or whether there can be any beneficial use of the property without the variance;
- 2) Whether the variance is substantial;
- 3) Whether the essential character of the area would be substantially altered as a result of the variance;
- 4) Whether adjoining property owners would suffer a substantial detriment as a result of the variance;
- 5) Whether the variance would adversely affect the delivery of essential services (e.g., water, sewer, septic, garbage) school transportation or emergency services (police, fire department, EMTs) from entering or leaving the property without impeding adjoining properties;
- 6) Whether the property owner's predicament can be resolved by some other means other than a variance.
- 7) The proposed use will be in the best interest of the public health, safety, and morals and;
- 8) Whether the hardship conditions were created by the actions of the applicant;
- 9) *Whether the applicant researched the Troy Township Zoning Resolution prior to purchasing the property;*
- 10) *Whether the property was constructed prior to the adoption of the Troy Township Zoning Resolution (1972), and;*
- 11) *Whether the Troy Township Zoning Resolution has been amended since the applicant has owned the property.*

### Staff Comments

Staff is in support of the modification with two comments; Delete "and" from the end of #7 (this has been moved to #10), and consider adding or modifying an existing factor to ensure the requested Variance is the minimum Variance necessary to accomplish the purpose of the request.

### Staff Recommendation

Staff recommends **Conditional Approval** of the text amendments to the Troy Township Zoning Resolution, to the DCRPC, Troy Twp. Zoning Commission and Troy Twp. Trustees, *subject to staff's comments within this*

report.

**35-25 ZON      Jeffrey Cutler – Troy Twp. – 4.95 acres – FR-1 to PC**

**Request**

The applicant, Jeffrey Cutler, is requesting a 4.95-acre rezoning from FR-1 to PC for future commercial development.

**Conditions**

**Location:** 26 Coover Rd., northwest corner of Coover Rd. and U.S. 23

**Current Land Owner:** Sedona Properties

**Current Zoning:** Farm Residential (FR-1) / **Proposed Zoning:** Planned Commercial (PC)

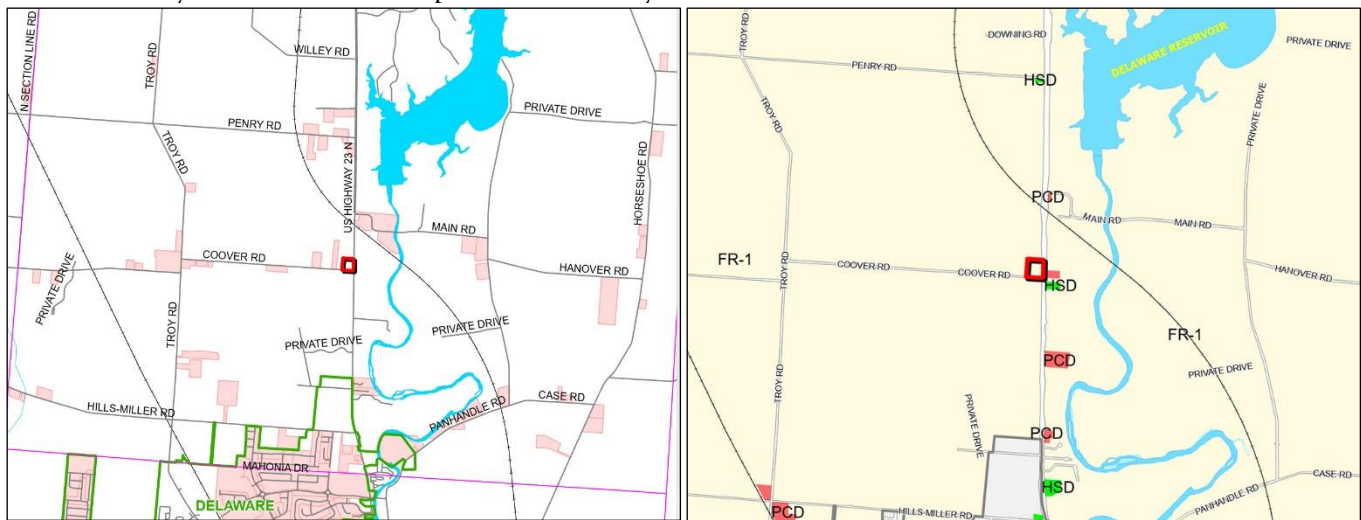

**Current Use(s):** Single-family residence / **Proposed Use(s):** commercial

**Surrounding Uses:** residential, commercial and farmland

**School District:** Delaware City / **Utilities Available:** City of Delaware

**Critical Resources:** pond / **Soils:** GwB

**Traffic Study:** None submitted to date. All DCEO requirements and standards must be met, including a traffic or access study if this site is developed commercially.

### Introduction

The site is located on the north side of Coover Road, just west of U.S. 23. The applicant is requesting to rezone to the Planned Commercial (PCD) district; however, no use or development is proposed at this time and no details were included with the submission for Staff to review. ODOT has proposed improvements to U.S. 23 that may impact this site, with land being dedicated for right-of-way.

### Comprehensive Plan

Troy Township's 2024 Comprehensive Plan includes this site in Subarea 3 - Agricultural Heartland District and recommends single-family residential uses at 1 du/2acres. The proposed PCD is not supported for this site. However, there are other nearby areas that support PCD zoning, specifically on the south side of Coover Road and east side of U.S. 23, south of Coover Rd. It is possible that further development of the state route may justify updating the plan in the future to include this area as a commercial use. Backage roads are supported in those areas to accommodate commercial uses and reduce access points onto U.S. 23.

### Divergences

No divergences are requested. However, Staff notes the following deficiencies with this request:

- 15.05(A)(2) - Minimum lot size is 10 acres, and the total site area is only 4.95 acres.
- 15.05(A)(4) - Minimum open space is not identified.
- 15.05(A)(8)/(9) - Minimum side and rear setbacks are 100 feet when adjacent to residentially zoned properties. All adjacent properties are zoned residentially, and with a 130-foot setback from Coover road centerline there is ~1.25 acres to be developed. However, a ~0.3-acre pond is included in that ~1.25 acres. These setbacks make this property potentially difficult to develop if zoned PC, especially when accounting for parking, landscaping, stormwater controls, and on-site wastewater treatment.
- 15.05(A)(13) - Centralized sanitary sewer is required; however, sewer is not available at this time and is not planned to extend to this area in the near future.
- 15.05(A)(17) - A landscape plan completed by a licensed landscape architect must be submitted.
- 15.09(A) - A Development Plan with substantial detail must be submitted.

### Staff Recommendations

Staff recommends **Denial** of the rezoning request by Jeffrey Cutler from FR-1 to PC to the DCRPC, Troy Twp. Zoning Commission and Troy Twp. Trustees, *based on Staff comments within this report.*

36-25 ZON     Kimberly & Ed Brady – Troy Twp. – 3.1 acres – FR-1 to PC

### Request

The applicants, Kimberly and Ed Brady, are requesting a 3.1-acre rezoning from FR-1 to PC to allow for future commercial development.

### Conditions

**Location:** 3430 US 23 North, east side of U.S. 23, north of Coover Rd.

**Current Land Owner:** Ed and Kimberly Brady

**Current Zoning:** Farm Residential (FR-1) / **Proposed Zoning:** Planned Commercial (PC)

**Current Use(s):** residential / **Proposed Use(s):** future commercial

**Surrounding Uses:** residential, commercial and farmland

**School District:** Delaware City / **Utilities Available:** City of Delaware

**Critical Resources:** none / **Soils:** GwB, GwC2, SoA

**Traffic Study:** None submitted to date. All DCEO requirements and standards must be met, including a traffic study if this site is developed commercially.

### **Introduction**

The site is located on the east side of U.S. 23, just north of Coover Road. The applicant is requesting to rezone to the Planned Commercial (PC) district; however, no use or development is proposed at this time and no details were included with the submission for Staff to review. ODOT has proposed improvements to U.S. 23 that may impact this site.

### **Comprehensive Plan**

Troy Township's 2024 Comprehensive Plan includes this site in Subarea 2 - Estate Conservation District and recommends single-family residential uses at 1 du/2acres. The proposed PCD is not supported for this site. However, there are other nearby areas that support PCD zoning, specifically on the south side of Coover Road and the east side of U.S. 23, south of Coover Rd. It is possible that further development of the state route may justify updating the plan in the future to include this area as a commercial use. Backage roads are supported in those areas to accommodate commercial uses and reduce access points onto U.S. 23.

### **Divergences**

No divergences are requested. However, Staff notes the following deficiencies with this request:

- 15.05(A) (1) - Direct access to at least one public road is required and this lot gains access through another residentially zoned (FR-1) and developed lot to the south. An existing guard rail extends across the entirety of this property, which is controlled by ODOT and limits any new access drives.
- 15.05(A)(2) - Minimum lot size is 10-acres and this site is only 3.1-acres.
- 15.05(A)(4) - Minimum open space is not identified.
- 15.05(A)(8)/(9) - Minimum side and rear setbacks are 100 feet when adjacent to residentially zoned properties. All adjacent properties are zoned residentially, which makes this site potentially undevelopable if zoned PC (less than 0.5-acre). Additionally, the front setback along U.S. 23 is 150 feet from centerline.
- 15.05(A)(13) - Centralized sanitary sewer is required; however, sewer is not available at this time and is not planned to extend to this area in the near future.
- 15.05(A)(17) - A landscape plan completed by a licensed landscape architect must be submitted.
- 15.09(A) - A Development Plan with significant detail must be submitted.

### **Staff Comments**

This property gains access from an unofficial, but recorded (O.R. 1359, Pg. 2474) Common Access Drive (CAD) that serves three (3) total lots. The 20-foot-wide CAD was not officially platted, but the CAD easement is identified in the deeds for these properties. Any future commercial uses gaining access onto this CAD would be inappropriate and there is a guard rail in front of this property that limits the location of any new access points. There are also steep slopes, a stream and a wetland that will reduce the land area that can be developed that are not accounted for with this request.

### **Staff Recommendations**

Staff recommends **Denial** of the rezoning request by Ed and Kimberly Brady from FR-1 to PC to the DCRPC, Troy Twp. Zoning Commission and Troy Twp. Trustees, *based on Staff comments within this report.*

---

**37-25 ZON Andrew & Laura Berger – Kingston Twp. – 10 acres – PRD to FR-1**

**Request**

The applicants, Andrew and Laura Berger, are requesting a 10-acre rezoning from PRD to FR-1 to allow the development of a single-family residence.

**Conditions**

**Location:** north side of Rosecrans Rd., west of State Route 61

**Current Land Owner:** Siemer Land LLC

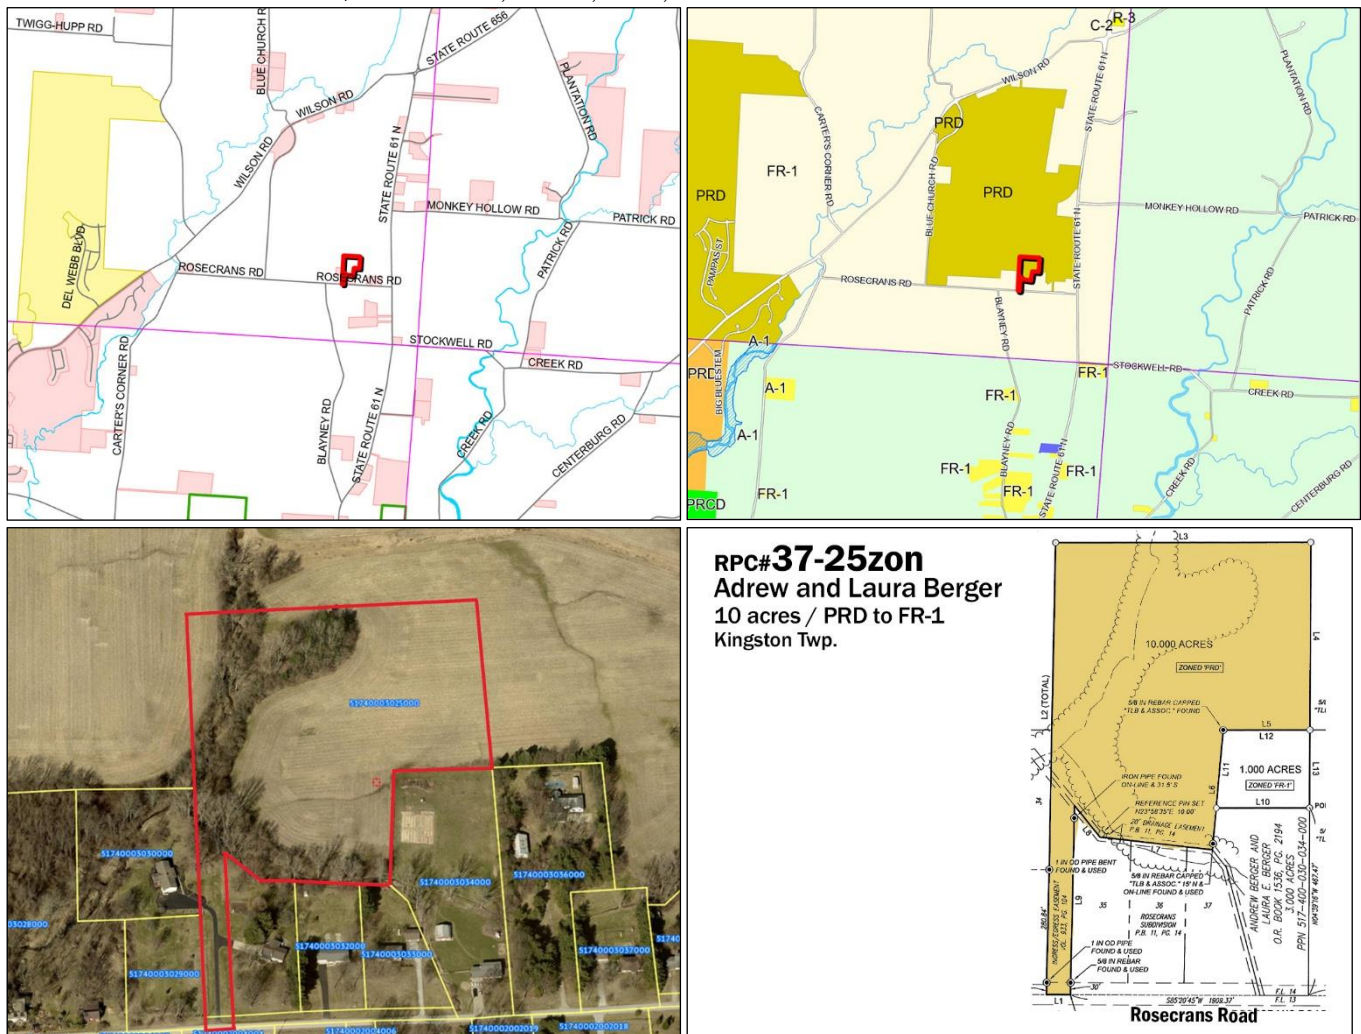

**Current Zoning:** Planned Residential (PRD) / **Proposed Zoning:** Farm Residential (FR-1)

**Current Use(s):** vacant / **Proposed Use(s):** Single family residence

**Surrounding Uses:** Agriculture and single-family residential

**School District:** Big Walnut / **Utilities Available:** Del-Co Water and private on-lot sewage treatment

**Critical Resources:** stream / **Soils:** SnA, CaC2, CaB, PwA

**Introduction**

The request is to rezone 10 acres from PRD to FR-1 to allow those 10 acres to be split from the original 585-acre tract to construct a single-family home. Provided this request is approved, the applicant also intends to transfer

one acre (already zoned FR-1) from their three-acre adjacent property to this site. The area to be rezoned was originally reviewed by RPC as part of a proposed 310 single-family lot project; after litigation, the PRD was approved in 2010 but has not developed. The applicant stated that the PRD-zoned area is not intended to be developed as approved.

### **Comprehensive Plan**

Kingston Township's 2023 Comprehensive Plan includes this site in Subarea IV – Little Walnut and recommends single-family residential uses with a minimum of 1.951-acre lot sizes when public sanitary sewer is unavailable, or Conservation Subdivisions at 1 unit/1.951-acres with a half-acre lot size and a minimum of 50 percent dedicated open space. The request is supported by the plan as the lot will be well over 1.951 acres and a single-family home is proposed.

### **Issues**

**Traffic and access:** Access will be from Rosecrans Road. The Rosecrans subdivision was platted in 1975 that surrounds this access point, with two of those subdivision lots having frontage on the road but utilizing a shared drive that is centered on the unplatted lot to be rezoned. It is not a platted Common Access Driveway subdivision. The applicant will own the land the drive is located on, and should amend or create a new maintenance agreement to ensure all three land owners share the cost of maintaining the drive.

### **Staff Comments**

Staff notes that all FR-1 and General Development Standards can be met with the proposed lot configurations. A CAD subdivision would normally be recommended or required in a situation where three or more lots will be utilizing a driveway. However, this lot already owns the land on which the drive is located, it's unplatted, and the existing drive already provides access to this site.

### **Staff Recommendations**

Staff recommends **Approval** of the rezoning request by Andrew and Laura Berger from PRD to FR-1 to the DCRPC, Kingston Twp. Zoning Commission and Kingston Twp. Trustees.

## SUBDIVISION PROJECTS

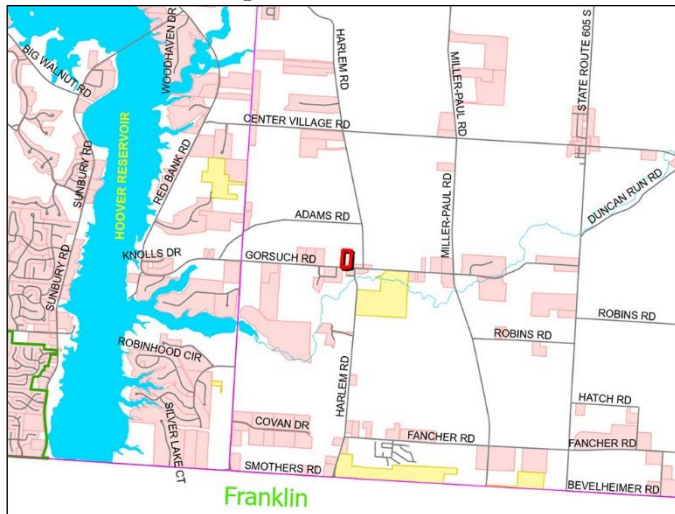

### PLAT / LOT VACATION

19-25                      The Town of Harlem Lots 1 & 2 Vacation – Harlem Twp. - 2 lots / .417 acres

**Applicant:** Christopher and Misty Murfield / **Surveyor:** Blue Church Surveying

**Location:** 10933 Gorsuch Rd. / **Zoned:** Agricultural Residential (AR-1)

**School District:** Big Walnut / **Utilities:** Del-Co Water, private on-lot treatment system

**RPC#19-25sub**  
**Town of Harlem Lots 1 & 2**  
**Partial Plat Vacation**  
**Harlem Twp.**

### Staff Comments

The Town of Harlem Subdivision plat was recorded in 1849 and includes 23 single-family lots within a total area of 8.76 acres. The lots to be vacated are #1 and a portion of #2, totaling 0.417 acres in size (the portion of West Street shown on the plat was vacated prior to 1971). These lots are zoned Agricultural Residential District (AR-1), and vacating the plat will not impact the existing development. Vacating this area will allow the property to be combined with unplatted land to the north for further subdivision.

The applicant has presented to the RPC Office a survey and legal description, a requirement for vacating

platted lots.

### Staff Recommendation

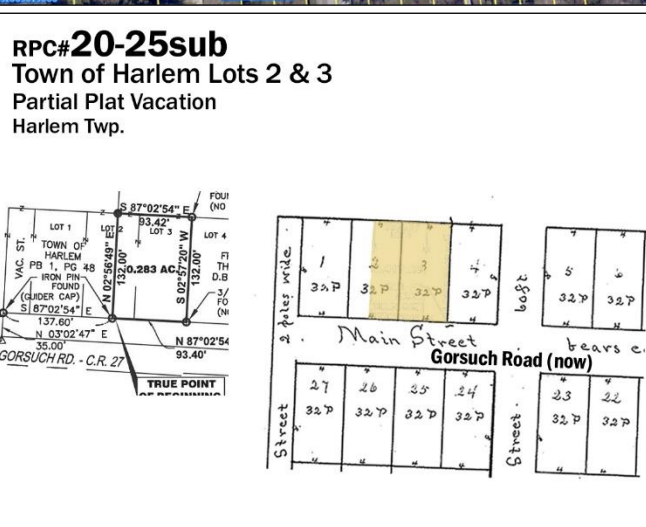

Staff recommends *Approval* of The Town of Harlem Lots 1 & 2 Vacation to the DCRPC.

20-25                      The Town of Harlem Lots 2 & 3 Vacation - Harlem Twp. - 2 lots / .283 acres

**Applicant:** Raymond Kiser / **Surveyor:** Blue Church Surveying

**Location:** North side of Gorsuch Rd., west of Harlem Rd. / **Zoned:** Agricultural Residential (AR-1)

**School District:** Big Walnut / **Utilities:** Del-Co Water, private on-lot treatment system

### Staff Comments

The Town of Harlem Subdivision plat was recorded in 1849 and includes 23 single-family lots within a total area of 8.76 acres. The lots to be vacated include a portion of #2 and all of #3, totaling 0.283 acres in size. These lots are zoned Agricultural Residential District (AR-1), and vacating the plat will not impact the existing development. Vacating this area will allow the property to be combined with unplatted land to the

north for further subdivision.

The applicant has presented to the RPC Office a survey and legal description, a requirement for vacating platted lots.

### Staff Recommendation

Staff recommends *Approval* of **The Town of Harlem Lots 2 & 3 Vacation** to the DCRPC.

## EXTENSIONS

21-23                      Longshore CAD – Trenton Twp. - 5 lots / 57.7 acres

**Applicant:** Sarnovsky Family Trust / **Consultant:** Plan 4 Land

**Preliminary approval:** 11/30/23

### Staff Comments

The applicant is requesting a 1-year extension for the Longshore CAD. The consultant stated that the “final plat is still in review phase” and is “projected to break ground in Spring 2026”.

### Staff Recommendation

Staff recommends *Approval* of a 12-month Extension for **Longshore CAD** to the RPC.
